Dear Daughter I got your last
letter 2 days ago & your other is
due time but have been busy
& did not get at writing I was
glad to hear you were all prob
well I was not mad at you
but sorrie that Aunt & you
did not agree as at make so
much talk among the neigh
bours & some of them is pickin
ing up every word you say
& ready to tell her & she is sill
enough to listen I think the
way Uncle talked & acted
was quite pravoeking & she
can not think he did any
thing wrong I hope her comm
ing here will not make me
trouble she is very fond of
visiting & of bawes wild talk
but dont tell any one what I
say while she is there for it

This year I hope you will
all keep well it is good that
James is so able to help his
father I have been nearly used
up some times it has been so warm
but I think I can see some better
than I did a year ago Michael well
told you all the news Mr Tabor
died 4 weeks ago only a few days
sick kidney & bowel complaint
it is sad for M'lls wife to be having
a baby & its father in the grave
I hope she will get along better
this time than before now my
advice is to say nothing to any of
our neighbours about for some
talk likes to tattler & make trouble
you never told me if you were black
who envied you the I shall tell me
next time I made hard soup this
week & I have not had time to dry
or stockings for 3 or 4 weeks untill
this afternoon it is after so good
right haping this will find you
well with love to all from Mother
