## F O R E W O R D

---

During the past ten or fifteen years the women of the country have been rapidly breaking down the barriers by which they had been separated from business or professional life from time out of mind, and to-day we find them forcing their way into all the spheres of activity in which men engage. This fact has necessarily brought about a gradual change of attitude toward them in the minds of business men, and women now receive recognition and consideration in many matters in which heretofore they have been a negligible quantity.

When the advance guard of this new element began to make itself felt in business life, it was doubted that a woman possessed the qualifications which would enable her to compete with men in com-

## *The Depositors of the Women's Department*

---

The individual ledgers of this Department at the present time carry approximately 6500 accounts and these depositors are residents of Rochester and the surrounding towns and villages.

The rapid increase in the number of women clients has demonstrated to the Management of the Bank the fact that their efforts to provide a suitable banking room for women have been appreciated and that their practice of treating all customers with courtesy and consideration has brought to it extended patronage.

---

---

*We are continually seeking  
new ways of making the  
Bank attractive and invite  
suggestions, especially  
from its women depositors,  
which may lead to new or  
improved forms of service.*
