I think I can truly say I  
have not lost courage for our  
minute since my arrest.

When Sittie and others were  
looking for bail, <sup>for me</sup> they would  
get discouraged and I re-  
marked to them that I wished they  
were as cheerful and hopeful  
as I.

Some how I have no  
fear in the matter, but am a  
little annoyed at the stoppage  
of the paper. I have written to  
The First Assistant P. M. General  
asking why the paper was stopped  
and if it will be allowed 2<sup>d</sup>  
class transportation again  
in the mails. If it will not  
then we will have to change  
the name, and get it admitted  
as another paper. It may be  
considered advisable to move it to  
San Francisco, or elsewhere, but  
for my part I want to stay in Portland

means degradation, losing their standing in  
society & more to them than any other demand.  
I have written more than I intended to & I guess  
branched out in directions away from the  
question at issue & as other duties are demanding  
my attention & I must hint to you what they are.  
Mrs Isaac has opinions of her own about  
getting up big Sunday dinners & spends nearly  
all day Sat to prepare stuffing for one day in  
the week. other days she takes care of themselves  
& don't require such dainty viands to tempt  
one to over stuff & thank goodness our digestive  
organs has six days to recuperate & get ready for  
the Lords day. for this display is due largely  
to the holiness of this day. & as I am a  
partaker of their hospitality & it is very  
kind & generous I feel called upon to  
share in such labor & relieve her of part of  
the wearisome task. I have my private  
opinions <sup>concerning</sup> of the gratification of our appetites  
& spread them publicly many times & to many  
people. I hope you have regained your  
health & will go on doing good & diffusing  
Authority. Your sister in the cause
