POETS' TRANSLATION SERIES

NOTICE

No 8 is sold

TEN copies of Pamphlet No. 3, "Choruses from Iphigeneia in Aulis" translated by H. ., have been printed on the finest hand-made paper, bound in Japanese Vellum tied with ribbons, the title in gold letters. Each of these copies is numbered and autographed by the translator. All extraneous advertising matter was removed from the pamphlet before printing. Nos. 1-7 have been sold; Nos. 8 & 9 are for sale at 7/6 net each; No. 10, the last available copy of this very limited edition will cost 10/6. The editors believe that this little edition de luxe is the most handsome in appearance and the most vigorous in rendering of any of the translations of these choruses since the beautiful little French version published by Sibilet in 1550.

Arrangements have been made to print a very limited edition on hand-made paper of each of the next pamphlets, 4, 5 & 6. In each edition the copies numbered 1-5 are reserved for subscribers who have ordered these first impressions of each of the editions de luxe. Copies of Pamphlet 4 - A Choice of the Latin Poets of the Italian Renaissance (many translated into English for the first time) - printed on the finest hand-made paper, bound &c as Pamphlet 3, can be obtained for 5/ net, by ordering before November 15th. Only three extra copies beyond those ordered will be published, and these will be sold at 7/6 each. Similarly, orders for editions de luxe of Pamphlets nos. 5 & 6, must be sent in before December 15th. and January 15th, 1916, respectively.

The editors hope to make an announcement of a Second Series of these translations very shortly. A prospectus will be sent to anyone interested.
